

THE SPIGOT

from the NORTH DAKOTA RURAL WATER SYSTEMS ASSOCIATION

Submitted by Moore Engineering, Rural Water Expo Corporate Elite Sponsor

22,365 acres
of opportunity.

Making communities even stronger.

Landowners and residents near the Upper Maple River Dam can now farm, graze and drive with greater confidence. The new dry dam will hold up to 9,950 acre-feet of water to reduce the risk to roads and 22,365 acres of productive land, protecting progress and livelihoods.

Rural Water Legislative Social, Bismarck

Rural water systems throughout North Dakota will take the opportunity to visit with senators and representatives from their local districts to indicate the need for quality water in rural areas. Exhibits and maps indicating water connections, current users, and anticipated new users are among the displays by rural water systems. This social is a great opportunity for legislators to become aware of the need for quality drinking water and the demand for rural water.

Feb.
6-9

Rural Water Rally, Washington, D.C.

The Rural Water Rally provides an opportunity for supporters of our industry to make their case directly to their elected officials. Rural water associations in each state schedule meetings with representatives, senators, and their staff to share their rural water success story, answer questions, and build important relationships. Attending the Rural Water Rally also provides a unique opportunity to meet with association leaders and watch the Great American Taste Test in person.

Feb.

Operator Certification Training, Multiple North Dakota Locations

Feb. 7, Medora; Feb. 8, Stanley; Feb. 9, Rugby; Feb. 21, Park River; Feb. 22, Mapleton; Feb. 23, Bismarck

Operator Certification Training provides operators and managers a better understanding of the operator certification process and proper test-taking procedures. Any operator/manager who will test or would like to test for the North Dakota Department of Health water certification exam should attend. The instructors provide important information relating to certification such as 1) how to use math formulas properly; 2) how to calculate volume, dosage, and feed rate; and 3) tips and tricks to certification exam success.

Feb.
14-16

ND Rural Water EXPO 2017, Bismarck

Visit www.ndrw.org for a ND Rural Water EXPO 2017 registration form and tentative agenda. It is an excellent opportunity for exhibitors and attendees to network with water industry suppliers and personnel. Earn continuing education credits while attending informational training sessions. This is a "don't want to miss it" event!
