Property Tax Reform

Placed a 3% cap on political subdivisions.

Allows for a vote of the people to raise that to be higher for no more than a four-year period.

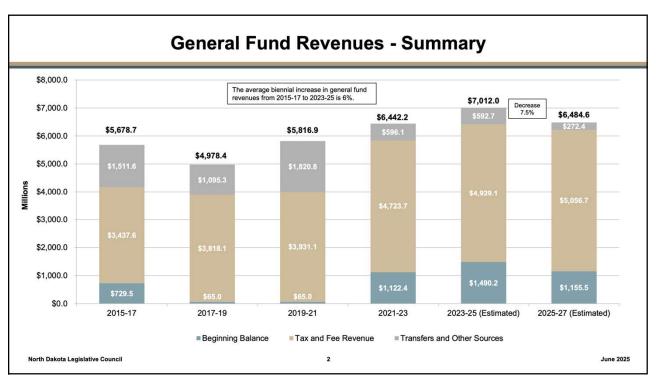

Clarified that for the purposes of a real estate sale, the primary residence tax credit will be pro-rated by the closing agent.

ANIMAL AGRICULTURE

Increase the number of dairy cattle, beef cattle and hog production in the state, North Dakota has a tremendous opportunity for growth in this area.

In the 2023 legislative assembly, ownership laws were relaxed to allow for more investment in these areas. In the past year, some dairy farms are looking to relocate in North Dakota and contain more than 40,000 dairy cattle.

Big win for area farmers who may contract to supply feed to these operations and would be able to purchase manure for fertilizer.

WORKFORCE

Career Exploration and Preparation – work to implement programs to expose students to various career paths early on, including internships and apprenticeships.

Technical Skills Gap – Invest in vocational training and technical education to equip workers with skills needed for modern industries.

Recruitment and Retention – develop initiatives to attract and retain talent, such as offering incentives to businesses to hire locally and providing support for employee retention

Removing Barriers to Employment – create programs to help individuals overcome obstacles to employment such as childcare support, transportation assistance and access to affordable housing.

Occupational Licensure Reform – simplify and streamline the process for obtaining professional licenses to make it easier for workers to enter new fields.
